C++

### ◆ PROFESSIONAL PROFILE

Creative, driven Full Stack Developer and Graphic Designer with over 5 years of international freelance experience delivering impactful digital solutions. Based in Skardu, Pakistan, I combine deep technical expertise in PHP, Laravel, JavaScript and Python with strong visual design skills to build complete, production-ready products — from backend architecture to polished user interfaces. I have successfully delivered 50+ web projects for clients across multiple countries, speak 6 languages, and thrive in collaborative, fast-moving environments. I bring reliability, craftsmanship and a genuine passion for solving real-world problems through technology.

### ◆ WORK EXPERIENCE

#### Freelance Full Stack Developer

Jan 2020 – Present

##### ◆ Self-Employed · Remote, International

- Designed, developed and deployed 50+ web applications for clients across e-commerce, education and hospitality sectors
- Built Laravel-based REST APIs and integrated third-party payment gateways including Stripe and PayPal
- Maintained a 95% on-time delivery rate and 90%+ client retention through clear communication and consistent quality
- Collaborated with international clients, translating business requirements into scalable, maintainable codebases

#### Graphic Designer

2019 – Present

##### ◆ Creative Studios · Remote

- Produced 100+ brand identities, logos, social media assets and print campaigns for a diverse global clientele
- Managed end-to-end design projects from concept and moodboarding through to final production-ready files

#### Web Development Intern

2019 – 2020

##### ◆ Tech Solutions

- Contributed to front-end and back-end development of client-facing web applications using HTML, CSS, JavaScript and PHP
- Assisted in optimising MySQL database queries, improving page load speeds by up to 30%
